7 REPORTS

7.1 Draft 2024 Speed Management Plan Hearing Report

Submitter: Brent Inwood (19298)

Topic: Wildman Road and Quale Street, Motueka – in support of a speed reduction from 60km to 30km at the intersection and suggested a mirror be mounted on the corner of Wildman and Quale Street, with speed humps on entry and exit to the corner.

Questions and Responses:

- what is your speed limit preference? – currently 60km, preference of speed limit being lowered to 30km, with the installation of speed humps and a mirror dome.

Submitter: Cam Moore (14469)

Topic: Milton Street, The Wood – in support of a speed reduction to 40km per hour.

Questions and Responses:

- is the issue in Milton Street the enforcement of the existing speed limit rather than the speed limit itself? – not entirely, being hit at a higher speed than a lower speed will give elderly and less experienced bike riders less time to react. Education needs to be given around speed limits in built up residential areas.

Submitter: Nelson McEwan (17465)

Topic: Beisley Avenue – in support of a speed reduction to 30km and enforcement.

Questions and Responses:

- how successful have the new speed humps been? – successful, it has lowered the extreme speeding.

Submitter: Grant Dennis – Little Sydney Valley Community Group (13919)

Topic: Little Sydney Valley, Motueka – in support of a speed reduction to 60km.

Mr Dennis tabled a document, that is available on Council's website in the Minutes Attachment document.

Questions and Responses:

- is there speed signage? – yes, 80km, 60km and 100km, very contradictory.

Submitter: Rachel Boyack, MP for Nelson (Zoom) (17517)

Topic: in support of speed reductions around schools, local roads that interact with NZTA roads and the need to identify those interaction areas and integrated speed management plan that would link these together. In support for arterial routes being 50km in urban settings but lower speed limits in community areas.

Questions and Responses:

- do you support 30km on all Nelson/Tasman urban roads? – Ms Boyack said that she felt the form wasn't clear and she did not support reducing speed limits on arterial urban roads, but where it has been identified there are school safety issues and boy racer challenges.

Action: Emma Speight to follow up with Ms Boyack regarding speed limit issues around schools that are interaction areas with NZTA.

Submitter: Peter Winfield (15456)

Topic: Polstead/Suffolk Road roundabout on the The Ridgeway – in support of the implementation of a stop sign at the Polstead Road entrance to The Ridgeway and modifications made to the roundabout design to be fit for purpose.

Mr Winfield tabled a document, that is available on Council's website in the Minute Attachments Document.

Questions and Responses:

- would a reduction in speed have an impact on visibility and use of the roundabout? - not really, it's the nature of the roundabout that is the issue, if it was removed and a compulsory stop was implemented and the removal of vegetation and parked vehicles on road side, this would be preferred.

Submitter: Fiona Pitcaithly (18718)

Topic: Jubilee Road – in support of a speed reduction from 100km (gravel road) to 30km.

Questions and Responses:

- have you considered oiling the gravel road outside your house? – yes, but we were told it is illegal and required a special product.
